FOLIA MICROBIOLOGICA

Vol. XVIII - 1973

ACADEMIA SCIENTIARUM BOHEMOSLOVACA

CONTENTS

Amin P. M., Nigam J. N., Lonsane B. K., Baruah B., Singh H. D., Baruah J. M., Iyengar M. S.: Microbial Biomass Production on Solid Hydrocarbons 49
Andreyev L. V. see Bezborodov A. M. 223
Arnaud A., Galzy P.: On the Role of pH in the Sporulation of *Saccharomyces cerevisiae* 281
Balasubramanian A., Rangaswami G.: Influence of Foliar Application of Chemicals on the Root Exudations and Rhizosphere Microflora of *Sorghum vulgare* and *Crotalaria juncea* 492
Bálint Š. see Betina V. 40
Baruah B. see Amin P. M. 49
Baruah J. M. see Amin P. M. 49
Basova N. N. see Levi M. I. . . 229, 237, 308, 315
Bauer Š. see Šandula J. 467
Beran K. see Seichertová O. 207
Betina V., Bálint Š., Hajnická V., Nađová A.: Diphasic Production of Secondary Metabolites by *Penicillium notatum* Westling S-52. Biosynthesis of citrinin 40
Betina V. see Koman V. 133
Bezborodov A. M. see Ivanova G. S. 212
Bezborodov A. M., Popova T. A., Chermenskii D. N., Andreyev L. V.: Quantitative Changes in the Content of Nucleic Acid Bases and their Derivatives in a Culture of *Penicillium sizowi* 223
Bhadra R., Goswami S. K., Majumdar S. K.: Effect of Different Complex Nutrients on Neomycin Production by *Streptomyces fradiae* H 300
Blumauerová M., Ismail A. A., Hošťálek Z., Callieri D. A., Cudlín J., Vaněk Z.: Regulation of Biosynthesis of Secondary Metabolites. XV. Isolation and Characterization of Auxotrophic Mutants in *Streptomyces aureofaciens* 474
Braná H., Hubáček J., König J.: The Effect of Actinomycin D and Flavomycin on *Escherichia coli* R$^+$ Strains 257
Callieri D. A., Moreno E. I., Molina O. E.: Biological Ensiling of Sugarcane Tops. IV. Sugarcane Tops Silage Supplemented with Alfalfa and Milled Malt 449
Callieri D. A. see Blumauerová M. 474
Čapek A., Šimek A., Leiner J., Weichet J.: Antimicrobial Agents. XVII. Antimycotic Activity of 2-Aminotridecane Addition Salts 142
Čapek A., Šimek A., Kejda J.: Antimicrobial Agents. XVIII. Inducible Resistance in Species of the Genus *Candida* 304
Chermenskii D. N. see Bezborodov A. M. . . 223
Cudlín J. see Blumauerová M. 474
Doležal J. see Kaprálek F. 1
Drahoňovská I. see Kaprálek F. 1
Durikhin K. V. see Levi M. I. . 229, 237, 308, 315
Ehwald R., Sammler P., Göring H.: Different Affinities of the α- and β-Anomers of D-Glucose, D-Mannose and D-Xylose for the Glucose Uptake System of Baker's Yeast . . . 102
Eroshin V. K. see Minkevich I. G. 376
Ferenčík M., Štefanovič J.: The Interaction of Protein Substrates (Antigens) During an *in vitro* Degradation by Rabbit Cathepsin D 402
Filip Z.: Clay Minerals as a Factor Influencing the Biochemical Activity of Soil Microorganisms 56
Fomenko G. A. see Levi M. I. 237
Galzy P. see Arnaud A. 281
Gerasyuk L. G. see Levi M. I. 229
Ginterová A.: Dedikaryotization of Higher Fungi in Submerged Culture 277
Godfrey C. W. see Kirpatrick 90
Göring H. see Ehwald R. 102
Goswami S. K. see Bhadra R. 300
Hajnická V. see Betina V. 40
